Final Report Criteria

1. Introduction

- Domain description
- Current system and limitations
- Goal & objectives
- Process re-engineered
- Assumptions, if any

2. Feasibility Study

3. Requirements

- Stakeholders / Actors
- Functional and Non-Requirements
- In-scope and out-scope
- Constraints and limitations, if any

4. System's Architecture

- Components and their functionalities
- Component interactions

5. System Design Diagrams

- Use case diagram
- Class diagram
- ER diagram
- Activity diagrams

6. Completeness of the Project
- Functionalities completed
- Functionalities yet to complete
- Individual contribution of the team members;

Mention the functionalities completed by the member, **including the test cases.**

Mention each member's individual contribution as a **percentage**.
